

LOST

In the Depth of
Lake Huron.

All But Two

Who were on the Vessel
were Drowned,

One of the Survivors Being
a Raving Maniac After
His Rescue.

The Captain Lived in Cleveland
and He is Among the Miss-
ing. Other Disasters on
the Lake.

Chicago, May 25.—The steam barge
Baltimore sank between Au Sable and
Fish Point on Lake Huron, according
to telegrams received here, and 13 of
the crew of 15 were drowned. The en-
gineer and fireman, the only surviv-
ors, were rescued by the Columbia
and taken to East Tawas, Mich. The
Baltimore was owned by P. H. Flem-
ing & Company of Chicago. The boat
was valued at \$40,000 and the cargo
at \$5,000. M. H. Place of Cleveland
was captain and his wife stewards.
George McGinnis a deckhand, one
of the rescued, went crazy from his
experience. The other survivor,
Thomas Murphy of Milwaukee, sec-
ond engineer, was in the water sev-
eral hours exposed to the buffeting
of a furious northeast sea until rescued
by the tug Columbia.

Captain Place resided at Lakewood,
a Cleveland suburb. He sailed the
steamer Germania for many years
and took command of the Baltimore
only this spring after buying an in-
terest in the ship. He was a member
of the Shipmasters Association carry-
ing \$1,000 insurance in that organiza-
tion. His wife went with him in the
new command as stewardess.

First and Fatal Voyage.
Sandusky, O., May 25.—Ed Bogot,
37, drowned at Sturgeon Bay, Wis.
Bogot and his brother were members
of the crew of the schooner Ishpeming,
and this was his first trip. He
was formerly known as Professor Bogot
and was a professional mesmerist.
He leaves a widow and one child.

Wrecked on Rocks.
Milwaukee, May 25.—The schooner
A. Bradley, Captain William O. Ertel,
went ashore in a northeast gale off
Port Washington and broke in two on
the rocks. The crew of six men was
rescued by the Milwaukee life-saving
crew.

Cadets Will Appeal.
New York, May 25.—Three of the
New York Point cadets recently ex-
ecuted for insubordination, B. O. Ma-
cally, Raymond A. Linton and John
L. Cleveland, who were offered in-
dultive places by General Francis
Greene, president of the New York
and Bermuda Asphalt Co., declined
to accept the positions offered them.
They told General Greene and Gen-
eral Avery D. Andrews, both of them
West Pointers, that it was their in-
tention to go to Washington and there
try to bring about a reversal of the
decision which has thrown them upon
the world at a time when their pros-
pects seemed brightest.

The Weather.

Kentucky Delegates.
Frankfort, Ky., May 25.—Governor
Beckham appointed 50 delegates to the
southern industrial convention,
which will meet at Philadelphia June
11 to 14. Among the delegates named
are Henry Watterson, ex-Governor J.
Proctor Knott, John W. Yerkes, Gen-
eral John B. Castleman, Colonel Ben-
nett H. Young and Mayor Charles P.
Weaver of Louisville.

Continuous Scale Proposed.
Milwaukee, May 25.—A continuous
scale is the big proposition which the
wage committee of the Amalgamated
Association of Iron, Steel and Tin
Workers is working on. If this plan
meets with success, it will do away
with a great deal of friction between
the manufacturers and the association
in the future.

Millers Visit Crescent City.
New Orleans, May 25.—A party of
30 members of the Western Millers'
association, which held meetings in
Kansas City May 21 and 22, came here
to examine into the port facilities of
New Orleans for exportation of flour
and grain. The millers will remain
in the city until Monday.

Death of Mrs. Breckenridge.
Lexington, Ky., May 25.—Mrs. Lilla
Morrison Breckenridge, wife of the at-
torney general of Kentucky, R. J.
Breckenridge, died here after a pro-
longed illness.

ACCUSED

Of Having Offered a
Bribe

While He was Conducting
Investigation.

A Serious Charge is Made Against
One of the Prominent Business
Men in a South Dakota
Town.

Sisseton, S. D., May 25.—John P.
Gorman, a prominent business man of
Sisseton, was held for appearance be-
fore the next federal grand jury to
answer a charge of attempting to
bribe Bertrict C. Thayer, special agent
of general land office at Washington.
While conducting an investigation of
a land case in which a Sisseton at-
torney was interested, Thayer is alleged
to have been approached by Gorman
on behalf of his friend, the attorney,
and it is said he was offered a cash
consideration if he would report as
the attorney wished.

Union Pacific's New Issue.
New York, May 25.—It was semi-
officially reported in Wall street that
the \$50,000,000 new issue of Union Pa-
cific four per cent bonds had been
sold to a syndicate, presumably Kuhn,
Loeb & Co. No statement was made,
however, as to whether or not these
bonds had been disposed of for North-
east Pacific stock recently acquired in
the interest of Union Pacific.

Proposed By De Giers.
London, May 25.—A dispatch to the
Daily Mail from Peking says M.
De Giers, the Russian minister has
proposed to the council of foreign
ministers to increase the maritime
customs to 16 per cent and a collec-
tive guarantee by the powers of the
China loan. M. De Giers also strong-
ly opposes any increase in land duties.

Help From Havana.
Havana, May 25.—The merchants
and clubs of Havana have been con-
tributing liberally for the relief of the
Jacksonville sufferers. Persons so-
cially prominent in Havana will give
a benefit, the proceeds to be devoted
to relieve Cuban orphans and helping
Jacksonville. The produce exchanges
subscribed \$500 to the latter fund.

Fought With Gordon.
Owensboro, Ky., May 25.—Colonel
Fred Woods, an animal trainer of the
Canton Carnival company, died here.
He was an Englishman and had been
in this country many years with an-
imal shows. Woods fought with Chi-
nese Gordon in the Sudan. He will
be buried here.

Seattle-Tacoma Interurban.
Boston, May 25.—A syndicate has
been formed among Boston capitalists
to build an electric railway in the
state of Washington between Seattle
and Tacoma, a distance of 33 miles.
It is the purpose of the builders to
reach a speed of 60 miles an hour.

Ministerialists Defeated.
Barcelona, May 25.—The scrutiny
committee has proclaimed the elec-
tion of four Catalanists, two Republi-
cans and one Monarchist. In spite of
official pressure the ministerialists
are thus defeated. Extraordinary
frauds have been discovered.

BACK

From Their Trip to
the Coast

The President

And His Party are Now
Speeding.

They Will Go Right on to
Washington With-
out Stop.

All the Proposed Side Trips Have
Been Abandoned on Account of
Mrs. McKinley's Recent
Illness.

San Francisco, May 25.—President
McKinley completed his program in
this city, having met every organiza-
tion included in the original schedule,
and Mrs. McKinley's health has so far
improved that the president and his
party have begun the return journey
to the national capital.

The president had a reception at the
Scott residence for members of the
foreign consular representatives of
this city, a reception at the Palace
hotel for the Sons and Daughters of
the American Revolution and the
Loyal Legion and a review of the
schoolchildren of Oakland, after
which the president spent the evening
at the Scott residence resting.

The return trip will be made as
scheduled, and there will be no stop
over until Washington is reached. The
president does not intend to leave his
train. No side trips will be made,
not even to Salt Lake or Denver. The
earnest desire of the president and
Mrs. McKinley is to return to the
White House as soon as possible. The
trip will not be made, however, on
rapid time, but in rather a leisurely
fashion, in order to lessen the burden
for Mrs. McKinley. The two trained
nurses who have been in attendance
upon Mrs. McKinley accompany her
to Washington.

Attachment For Stock Transaction.
New York, May 25.—Justice O'Gar-
man of the supreme court granted an
attachment for \$51,029 against the
property of George T. Wood & Com-
pany, bankers and brokers, for money
advanced on the purchase and sale of
stocks.

More Horses For the British.
New Orleans, May 25.—The steamer
Tactician cleared for Cape Town with
1,100 horses.

CALAMITY

Which Befel Prominent
Pythian.

Awoke to Find Himself
Totally Blind.

He is Advanced in Age and the
Physicians Say His Case is
Hopeless. Otherwise in
Good Health.

Marysville, O., May 25.—Peter
Finch, 87, of Chabourne township, the
oldest Knight of Pythias in Ohio,
awoke from his night's sleep to the
sad realization that he was totally
blind. When the family awakened
him everything seemed to be dark to
him. Not realizing that he was blind,
he asked what time of night it was.
When told that it was daylight his
condition dawned upon him. Physi-
cians were called, but were unable to
restore his sight. His blindness is
probably due to old age. He is other-
wise in good health.

YACHT RACE POSTPONED.
Sir Thomas Given One Month to Put
the Shamrock in Order.

New York, May 25.—It was prac-
tically determined that the cup races
will be postponed only one month, al-
though the New York Yacht club,
through its challenge committee, has
expressed a willingness to give Sir
Thomas Lipton any time that may be
necessary to put his damaged racer
in condition again. Sir Thomas Lip-
ton finds that he can repair his yacht
in less time than originally estimated.
A cablegram was received from Sir
Thomas saying that if he could be
allowed until Sept. 21, it would be
agreeable to him. The challenge com-
mittee granted the request for pos-
ponement to that date.

Boers were Worsted.
Pretoria, May 25.—One hundred
Boers today attacked a patrol of 20
British, who were occupying a farm
house. The Boers were repulsed, los-
ing 15 killed and 17 wounded. One
British soldier was wounded.

Seventy-two Men Missing.
London, May 25.—A despatch from
Cardiff Wales, states that nine more
bodies have been recovered from the
colliery at Senghenid. No hope is
entertained that any of the entombed
men survive. Seventy-two are miss-
ing.

More Kidnapper Threats.
Orange, N. J., May 25.—Kidnappers
have threatened to take Thomas A.
Edison's twelve-year-old daughter
Madeline and as a result his house at
Menlo Park is being closely guarded
by detectives. Mr. and Mrs. Edison
are greatly alarmed.

Lottery Representative Jailed.
Chicago, May 25.—B. M. Kennedy,
the local representative of a Kansas
City lottery company has been jailed
here for attempt to substitute a coun-
terfeit lottery ticket for a genuine one
held by S. C. Marsh, of South Bend,
Ind., whose ticket called for \$75,000.

A TRUCE

Has Been Patched Up
in Rate War.

The Wabash and its Com-
petitors Get Together

And Arrange That Rates in Effect
April 30 Shall be Restored
on all Lines on
June First.

Chicago, May 25.—A temporary
truce in the differential rate war be-
tween the Wabash and its competi-
tors was agreed upon by the joint
meeting of eastern and western gen-
eral passenger agents. Under this
agreement rates will be restored by
all lines June 4 to the basis in effect
April 30. The rates to be made by
the various eastbound roads from
Kansas will be fixed by arbitration by
June 1. D. B. Martin of the Baltimore
and Ohio having been chosen sole ar-
bitrator. The Wabash and Alton, the
two roads mostly interested, withheld
their rates on the proposition until
their officers had been consulted, and
the danger still remains that the
heads of the Alton and Wabash may
veto the proceedings of the general
passenger agents.

Decision on Insular Cases.
Washington, May 24.—The decision
of the supreme court of the United
States is that the constitution does
not follow the flag. This decision, the
most important that great tribunal
has ever made, it is authoritatively
reported, will be handed down next Mon-
day. The decision is in favor of the
government by a divided bench. There
will be at least five individual op-
inions, but some of these are concurring
opinions expressing the views of the
writers more fully and particularly
than is done in the opinion of the ma-
jority. The court goes back to the pe-
riod in which the republic was formed
and the constitution framed, and en-
deavors to ascertain what was the
intention of the founders of the nation.

the Authorities

And His Deacons and Nurses

For Practicing Without a License—
The Jury Brings in Another
Adverse Decision
Against Dowie.

Chicago, May 25.—Another cor-
oner's verdict has been registered
against the followers of John Alexan-
der Dowie.

The jury which heard the evidence
in the case of Mrs. Mary Louise Chris-
tensen declared that her death was
due to neglect by the authorities of
Dowie's church, and urging the state
officials to investigate the workings of
the hospital run by Dowie, which is
said to be managed in defiance of the
state laws. Steps will also be taken
to prosecute some of the nurses and
"deacons" in charge of the place for
practicing medicine without a license.
Mrs. Christensen was burned in her
dwelling and so severely injured that
she died some days later. No medical
attendance was given her, but evi-
dence was brought out to the effect
that the burns had been treated with
vaseline and although the Dowieites
disclaim against antiseptic precau-
tions, insisting that there is no such
thing as infection, it was admitted
that the bandages used in treating the
woman had been carefully boiled.

Dowie Paid Funeral Expenses.
New York May 25.—Dr. J. Alexan-
der Dowie paid the expenses of the
burial of Earl Gladstone Pierson, the
2-months-old child of J. Luther Pier-
son, the faith curist, in jail at White
Plains because he refuses to pay a
fine of \$500 imposed upon him for
failing to provide medical attendance
for a foster daughter who died re-
cently of pneumonia. A New York
undertaker called at the Pierson
home in Valhalla and told Mrs. Pier-
son he had been instructed by the or-
ganizer of the Christian Catholic
church in Zion, of which Pierson is a
member, to look after the burial of
the child. He said Dr. Dowie forward-
ed money to pay for a plot in which to
bury the infant.

\$10,000

Is the Price This Judge
Set on a Leg.

Reprimanded Jury for Its
Verdict of \$1,000

And Said the Victim Should Have
\$10,000 or Nothing. A Retrial
of the Case was
Ordered.

New York, May 25.—Supreme Court
Justice Gaynor, of Brooklyn, has set
the price for a man's leg at \$10,000.
The jury in the case of John Eber-
hardt, who lost a leg in a railway ac-
cident brought in a verdict for \$1,000.
Gaynor set aside the verdict yester-
day, and reprimanded the jurors, who
rendered the verdict. The judge said
the verdict should have been \$10,000
and that the victim should have that
much or nothing. He then ordered a
retrial of the case.

BY BIG MARGIN

The Cuban Constitutional Convention
Killed the Minority Report.

Havana, May 25.—The minority re-
port of the committee on relations
with the United States was defeated
in the constitutional convention by a
vote of 19 to 8. The Conservatives be-
lieve the final vote on the majority re-
port will be taken Monday but they
do not expect to hold the full strength
shown in the vote on the minority re-
port. Senor Zayas, in a speech said
the minority report was too conserva-
tive and he could not accept it. It is
believed that Senor Zayas may possi-
bly carry two other delegates who
voted with the Conservatives.

Killed by Lightning.
Lebanon, O., May 25.—Dr. Wit-
ham of South Lebanon was struck
and instantly killed by lightning near
Hufford's grove, and Charles James
and Charles Weinkoff were seriously
injured by the same bolt. They were
members of a party of pupils of the
public schools who sought refuge
from the storm in the Hufford farm
barn. Scarcely had they entered the
barn when it was struck by lightning.
All were more or less shocked and the
barn badly damaged. James and
Weinkoff will recover.

Sir Alfred's Twaddle.
Pittsburg, May 25.—Wilson Miller,
president of the Pittsburg locomotive
works, does not take seriously the at-
tack made on American locomotives
by Sir Alfred Hickman in the English
parliament. He said it has been dem-
onstrated that the life of the Ameri-
can locomotive, given fair play, was
much longer than the English one,
but much depended on the manner in
which it was handled.

Manilla Mail.
Washington, May 25.—About 600
pounds of Manilla mail have just been
received at the war department. The
most important document received
was the report of the Taft commission
on the scheme of civil government for
the Philippines which, it is expected,
will be put in operation about July 1.
If approved by the president and sec-
retary of war. The document is quite
voluminous.

Explosion in a Colliery.
London, May 25.—An explosion oc-
curred at the Universal colliery at
Senghenydd, in the Rhondda valley.
About 75 men were in the pit at the
time of the disaster. The rescuers
have found a few bodies, but there is
no hope that other miners entombed
will be brought out alive.

LAKE SHORE

Appraisalment of Prop-
erty in Ohio

Is Increase Over What it
was Last Year.

The Total Increased Valuation in
This State Will Amount to
Over a Million
Dollars.

Cleveland, May 25.—The county
auditors appraised the Lake Shore
and Michigan Southern railway prop-
erty in Ohio. The auditors, after ex-
amining two officials of the company,
appraised the main line tracks of the
road at \$21,000 per mile, or \$20,000
more per mile than last year. The
valuation on second tracks was in-
creased from \$7,000 to \$7,500; side
track from \$3,500 to \$4,000. Slight ad-
ditions were made on other property.
The total increase in valuation is \$1,
198,250.

Ordered to Mare Island.
San Francisco, May 25.—As a result
of the machinists' strike in this city
all of the United States army trans-
ports needing repairs are to be sent
to the Mare Island navy yards, where
the work will be done. The Sherman
was the first vessel to go to the navy
yards under this new order of the
government authorities. The strike
situation is unchanged, neither side
showing a disposition to yield.

Baker's Motion Defeated.
Philadelphia, May 25.—After an ex-
tended discussion in the Presbyterian
assembly, Dr. Baker's motion to dis-
miss the whole matter of creed revision
was defeated and the assembly
adjourned until this morning, when
discussion was resumed on the re-
ports of the revision committee.

American Labor Bureau.
St. Louis, May 25.—The scope of the
National Association of Bureaus of
Labor Statistics in session here, was
enlarged and by unanimous consent
officials from the bureaus from any
country on the American continent
were made eligible for membership.
The name was changed from National
to American. Carroll D. Wright,
United States labor commissioner and
president of the organization, pre-
sided. In addition to the 20 state bu-
reaus represented there are present a
half dozen labor officials from Canada.

Buckeye Teachers.
Bellevue, O., May 25.—There
will be no meeting of the Ohio Teach-
ers' association at Put-in-Bay this
summer as usual. This word will be
sent to all teachers in Ohio in a cir-
cular issued by Chairman John W. Mac-
Kinnon of Bellevue, of the Ohio
committee arranging for the fortieth
annual session of the National Educa-
tional Association to be held at De-
troit, July 8-12.

Peculiar Pies Put Vain.
New York, May 25.—Foo Soo Tai,
the Chinese merchant of New Orleans
who has been confined in the Tombs
a week on a charge of embezzlement
of \$30,000 from his firm in Louisiana,
appeared before Magistrate Brann
and asked to be released on the
ground that a partner can not embez-
zle the funds of his own company.
This request was denied.

Both Editors

Of a College Paper at
Vincennes

Were Ducked by the In-
censed Students of the
College.

One was Dragged Through the
Streets With a Rope About
His Neck Before He
was Ducked.

Vincennes, Ind., May 25.—A sepa-
rational incident is reported to have
been enacted at Vincennes univer-
sity. The regular program had been
concluded and the hallway was crowd-
ed with professors, students and vis-
itors, the majority of whom faintly
anticipated something was to follow,
and remained in their seats.

H. B. Holman, a member of the
senior class, as chairman of a "Reas-
ting" committee, arose to read a pa-
rody on certain scripture verses, aimed
to ridicule A. W. Burger and W. W.
Willis, seniors, who are editors of
the "Blue and Gold," the college pub-
lication. Burger and Professor Bacon,
instructor in science, rushed into the
hall and destroyed the speaker's man-
uscript. In an instant 25 students were
piled up in a football heap on the
stage in a rough and tumble tussle.
In the scrimmage a number received
severe bruises and Willis had his
clothing almost torn off before order
was restored. The students pulled
Burger through the streets with a
rope around his neck, yelling "Hang
him!" and the student editors were
ducked in the Wabash river to atone
for roasting the other students in the
"Blue and Gold" during the season.

Wild West Tragedy.
Muncie, Ind., May 25.—During the
performance of "Ruckskin Bill" wild
west show at Newcastlo, Edward Wal-
lace, colored, of Cairo, Ills., was stab-
bed to death by William Briggs, col-
ored, of Paducah, Ky., in the cooking
kitchen, where both were employed. A
butcher knife was used. Wallace
warded off the first blow with a bread-
board, but the next stroke sent the
10-inch blade of the knife to his heart
and he was then ripped open, dying
immediately. Briggs escaped to the
woods.

Reward Offered.
Springfield, Ills., May 25.—Governor
Yates issued a proclamation offering
\$200 reward for the apprehension and
conviction of the unknown parties
supposed to have been implicated in
the murder of James L. Barnes, a
Monticello dentist, who was murdered
by poison at central hospital for the
insane, Jacksonville, Ills., May 1, and
for which crime Barnes' wife and a
negro named William Webb Ferguson,
both of Quincy, were jointly indicted
by the grand jury at Jacksonville.

The Lima Street Railway company are doing a piece of work upon west Market street which will be most thoroughly appreciated by the people of this city and is a substantial evidence of the intention of Mr. Mayer and his associates to put their property in this city into a condition which will make it compare favorably with the best street railroads in Ohio. They have torn up the entire track from Cole street to Elizabeth street and are putting down new ties and the very best grade of heavy grooved rails the entire distance. The workmen are still engaged in tearing up the old track and will soon have the rails up as far east as the public square. Not only are these people putting down new ties and new rails but the entire substructure is being removed and new concrete will be placed under and around the ties and the portion of the asphalt that is taken up will be replaced by the best grade of that material. The Barber Asphalt company are doing the work of excavating and relaying the concrete and asphalt, which is in itself an assurance that the work will be done in the best manner known in the method of modern street construction. It will cost the railroad company a lot of money to put in this track and repair the street in the manner in which they intend doing the work, but the people of Lima will show their appreciation of the effort of these men by giving them a patronage, when the running of cars is resumed, which will indicate to the streetcar people that the citizens of this city are neither ungrateful nor unappreciative.

John Alexander Dowie, the Chicago faith "healer," is skating on very thin ice just now. The police are after him for permitting a woman and her little daughter to die without proper medical treatment and indignant citizens are declaring they will lynch him the moment they lay hands on him. The "laying on of hands" seems to be Dowie's forte, but so far as the intention of the would-be lynchers is concerned they will produce the same

result with a rope that Dowie has evidently accomplished with his hands.

The street railway people yesterday had sleigh bells put on their team which hauls the transfer wagon along west Market street during the period that the track is torn up. The jingle of these bells and the rapidly falling temperature last evening made it an easy matter for people to imagine that snow would soon be falling.

The Woman's Political Equality club, of Trumbull county, has begun what is to be a concerted movement throughout the state to ask the next legislature to pass a law permitting the women to vote on all propositions having for their object the raising of money.

Russia declares she has no "hostile sentiment toward China." Oh no, nothing of the sort. Russia entertains no hostile feeling, whatever, it is merely one of those cases of benevolent assimilation like we have in the Philippines.

The next Democratic State convention will consist of 350 members. The basis is one delegate for every 500 voters or fraction over 250, cast for W. J. Bryan last fall. Mr. Bryan's total vote in Ohio was 474,882.

Minister Conger was muzzled as soon as he reached Washington. Whether the Iowa republicans are willing to have a muzzled candidate for governor is yet to be ascertained.

The oldest inhabitant cannot recall a more sudden drop in temperature in the latter part of May than that which was experienced in this locality yesterday afternoon.

Virginia democrats have arranged to get considerable excitement out of the choosing of a state ticket, which is natural, as the choice will be equivalent to election.

The big crooks naturally feel a contempt for the war department clerk who offered to sell copies of official correspondence of Neely's stealing for \$200.

The State Board of Agriculture has designated September 3d as military day at the state fair. The prizes will aggregate \$1,777, the first being \$600.

J. Pierpont Morgan is said to contemplate foreclosing his mortgage on the republican party and taking an office.

THE IDLER.

Lima Has Enough of Her Own. "Prince Bailey is dead. Prince was Dan Bailey's dog, you know. He was active. He could go down a long flight of stairs in three leaps. Like some active people, he had his friends and his enemies. Prince went to Lima and he must have been poisoned, as he was in the best of health when he left, but he died suddenly."—Ottawa Gazette.

JUMPED

And Escaped With Only a Shaking Up.

Newspaper Man Hit the "Grit" at Ft. Recovery

When the Merchants' Special Plowed Into the Caboose of the Freight Yesterday—Echoes of the Wreck.

Engine No. 102, of the L. E. & W., the handsome and speedy Baldwin that was pulling the Cleveland merchants special when the "tail end" collision between the special and an east bound freight train occurred at Ft. Recovery yesterday morning, was brought to this city last evening by engineer Louie Schwartz and every engine man on the division was pleased to learn that she was not very badly injured. Her pilot was shattered, front end broken into fragments, headlight smashed and boiler extension slightly disfigured, but all of her injuries can be repaired within a couple of days. The front end was boarded up and plastered with mud before she left Ft. Recovery and ten miles of the distance between this city and Ft. Recovery, on a good stretch of track was reeled off in ten minutes.

When the wreck occurred, traveling fireman C. W. Counsellor and a Cleveland Leader reporter were on the special's engine with engineer C. E. Nutting and fireman J. M. Bacon. All jumped except the latter and none of them were injured other than the good shaking up they received when they hit the "grit."

Notes.
Engineer John J. Cunningham, of the L. E. & W., has been assigned to engine No. 58, which was turned out of the shops on her trial trip yesterday.

Agree on One Main Point.

A High School

Is a Necessary Addition to the City

But the Amount to be Expended and the Location Are in Dispute.

A Majority of Those Interviewed Favor the West Grounds and Say That \$75,000 is Not a Cent too Much.

The question of absorbing interest just now to the people of Lima, is the proposed construction of the new high school building as per resolution adopted by the board of education at its meeting two weeks ago. The advisability of issuing bonds for the sum of \$75,000 and also the question of location was fully discussed during the session, and the reported proceedings showed that even on the board there was a dispute on both propositions. The minority, and, it might as well be plainly stated, a very small one, took the stand that \$75,000 was too much money, contending that \$50,000 would be ample for a building needed to accommodate the advanced pupils of Lima, and that the people would refuse to vote for a proposition which would place a larger sum at the command of the board.

Again, on the proposition to at once establish the location of the building, the supporters were in the minority, much so that it was found expedient by the members making the motion to withdraw it before a vote was taken. It was the sense of the majority to put the question before the people on the one suggestion—the absolute need of such a building and leave the question of location to the good judgment of the board, which has absolute jurisdiction. The principal argument made was that to decide upon a site before the voters had a chance to deal with the proposition would be to flout a decisive opinion in the faces of contending factions, and that it would only result in stirring up an animosity which would tend to defeat an idea cherished by every well informed citizen of the town.

Since the meeting of the board, and the publication of the transactions of last Monday evening, the question of a new high school in all its bearings has been freely discussed, and opinions have been offered by the class of men who have not only the best interests of the city at heart, but have done much to promote the educational interests of Lima. It was the aim of a representative of the Times-Democrat to interview a number of the business men on the proposition and the results are given without prejudice.

D. J. Calde—It is the duty of every citizen in Lima, who has the pride of city at heart, to support the project for a new high school. Lima is not a village, but a city of the first class, and we want to do it to keep our educational institutions in line with our rapid growth. That we need a new high school is no longer a matter of dispute, and granted that we do need it, the amount proposed is not a cent too much. The present quarters are not fit for a high school, speaking in particular from a sanitary point of view, and when the foundation is laid for a new building, it should be surrounded by a structure which will be a monument to our good taste and fully up to all modern requirements. As to the location, I think that should be left to the discretion of the board and am willing to place my confidence in the good faith of the members when a point is reached. I might add that a building should be as near central as possible, but by all means far removed from the noise and filth of the city as consistent with its idea.

Herbert Bogart—No city in the state has a high school more than Lima. A \$75,000 is rather too little than too much to provide the kind of a building required. I think that the west grounds now owned by the city should be the location by all means.

Judge John E. Richie—Lima should have a high school building erected. I would meet the demands of the national interests of the city for the next fifty years, and \$75,000, if properly used, would be a wise expenditure. As to the location of the building, it should be placed as far

north as to be free from the noisome odors of the river, and far enough west to be away from the smoke and cinders of the railroads and the business traffic of the city. The building should be ample large to fill for the present the double purpose of a high school and ward building and its accommodations and equipment up to the most modern ideas.

Auditor Feltz—I am familiar with the financial condition of the city and am in favor of economizing wherever possible. I am not blind to the needs of a high school in Lima, but I would favor only such expenditure as would be warranted under the circumstances. As for the location, I haven't given that very much thought, but am of the opinion that the board of education is in a position to take care of it.

U. M. Shappell—I have given the matter considerable thought since its being launched by the board. We need a high school and \$75,000 is not too much money to spend for it, but it is my opinion that the question of location should be decided before the vote is taken. Much depends upon that particular point and is, in my opinion, a necessary conclusion. I am in favor of determining the exact center of population, according to the school census, and of erecting the new high school as near that point as possible. Yes, I am in favor of getting it away from the city traffic and anything that would distract the attention of the scholars, but a square or two would not make much of a difference.

John Louy—Give us a new high school and spend \$75,000 if necessary. The location should be as convenient as possible to the scholars in every part of the city, consistent of course with whatever might be the other advantages.

W. F. Numan—Give us a high school by all means, and let it be up to the standard of cities the size of Lima. If not just a little bit better. My idea is that \$75,000 will not be any more than enough to provide a structure which should have all of the modern conveniences and facilities sufficient to meet every requirement. In addition to a large auditorium for the purpose of holding commencement exercises and other educational rallies, there should be a gymnasium properly equipped for both the boys and the girls. The high school is practically a college for those who are not in a position to attend one more advanced, and the opportunities should, as near as consistent with the funds at hand, be equal to the preparatory schools. As for the location, the west grounds is the proper place, as the expense of providing additional territory would thus be eliminated and twelve or fifteen thousand dollars more be available to provide for the extra equipment of the building.

F. E. Harman—In dealing with the high school proposition, it is well to look far into the future. Twenty-five years ago the west building would have been considered a structure of grand proportions, but what is it now? Again, there is the new east ward building. If such a school had been advocated ten years ago it would have astonished the people, but today it is not any more than fits the demands. The amount asked for to erect a high school is reasonable considering the growth of the city and as for its location, it should be placed where it will be an ornament to the city. By all means the west grounds is the place to locate it, for it would then be very near the center of population and entirely free from bad odors or unsightly surroundings.

Dr. A. S. Rudy—I am heartily in favor of the proposed new building and can offer no objection to the amount contemplated to be expended. I emphatically declare, however, that the matter of location, should be definitely decided before the proposition is submitted to the people, otherwise I am of the opinion that the proposition will fail. I maintain that the building should be so situated as to afford equal advantages of attendance to pupils from all parts of the city, and in so asserting myself I reflect the sentiment of not a few of the parents who have children attending.

J. H. M. Morrison—I am very much in favor of a new high school building, but like many others who live in south Lima, I would prefer to have the matter of location decided before the vote is taken. Personally I would insist that the building be so located as to give south Lima pupils the same advantage as those in the north, east and west. I feel satisfied that unless the board of education decides beforehand that the building is to be as near centrally located as possible, the south side voters will vote against the bond proposition almost wholly.

I. S. Motter—Do we need a high school? Well indeed we do. Is \$75,000 too much money? No, it is just about what would provide Lima with the kind of a structure the city demands. As for the location, the west grounds are perfectly adapted for the

purpose, not because I live on that side of the city, but because it is so near the center of location as not to make it a hardship for any pupil to attend, and, better still, the grounds are far enough away from the business traffic to make them especially desirable. I cannot see why a determination on the part of the board of education to erect the building on the west grounds should either bring about a controversy, or cause anyone to declare for the defeat of a proposition which means so much for the educational interests of the city.

F. F. Leland—Build the high school, spend all of \$75,000; it's not too much. Put it in the center of population, if possible, but if not, as near as can be done without detracting from the appearance of a handsome architectural monument. By selecting the west grounds, few pupils would have more than a mile to walk, and that would be the case no matter what site was selected.

W. C. Shoemaker—I may have an original idea in regard to what I confess is the urgent need of a new high school. If it is intended, as I have heard, that the building is to contain a large auditorium and other advantages which the modern idea has invoked, then \$75,000 is a modest sum to ask for. Lima is a rapidly growing city and I see a splendid future in store for her. It will not be a great many years, twenty-five at the farthest and ten perhaps, when even a \$75,000 high school will be found inadequate to meet the demand. When such becomes the case then it would in my opinion be the wise thing to erect a second building and separate the boys and girls, one sex to occupy the building in contemplation, and the other to be consigned to the second high school. I would rather see the \$75,000 increased to a hundred and then split in two, so as to provide separate buildings but the city is perhaps not far enough along in population to make the plan feasible now. But give us the high school now and build it in the most desirable location with equal advantages to all concerned.

D. S. A. Baxter—I have always been, and am now, in favor of the advancement of anything which will lead to the better educational facilities of Lima. The need of a high school is hardly a matter of dispute, as the question is one with which the people are familiar, and the building of it has become an absolute necessity. I am reminded of a grand and lasting monument erected to preserve the memory of a philanthropist of Lafayette, Ind., and his giving to that city a combination high school and public library will always be a reminder of his liberality. It is my opinion that the proposed new high school should be so designed as to provide not only a place for advanced pupils, but a section of it set aside for library purposes. With that view in mind, the sum of \$75,000 is not too much, and if found necessary even a greater sum might well be expended. I don't care a snap of my finger about the location because I think that the school board is composed of men who are well able to take care of that end of it.

Walter B. Richie—The high school is the poor man's college and the city needs it badly. As for the other two propositions, the expenditure of the money needed and the location of the building, I think the members of the school board are the ones to solve them, and I am one who is prepared to rely on their good judgment in both matters.

Dr. Wm. M. Melville—Yes, sir, we need a high school in Lima and there is only one place for it—that's on the west grounds, which the city already owns. In providing for it we do not look at today or tomorrow, but well into the years to come. The grounds are beautiful and conveniently situated; and I would favor in the erection of the building that the high school be placed on the High and Pierce street section, and made to accommodate for the first few years the pupils of the ward and the high school scholars. When the building becomes crowded, then a separate ward building should be erected on the North and McDowell streets section, thus putting two fine buildings on the grounds, which are sufficiently large for that purpose. As to the amount to be expended I have not given it a great deal of thought, but there should be enough to meet the demands and erect a building that will be a credit to the city.

Amos Young—We want a high school building and with as little delay as possible, but I think that fifty or sixty thousand dollars is enough money, provided it be carefully expended. That amount would put up a building that would meet every purpose in Lima for the next 20 years. I would locate it in the center of population, based on the school census, and think that at about the intersection of Spring and Elizabeth streets would be the proper place. If it is erected on the west grounds, I think it should be in the center of the lot and two ward buildings built, one further northwest and another southeast of

where the present one now stands.

A. S. Creps—The question as to whether or not we need a high school is indisputable. This matter being unquestioned leaves to be determined the location and cost of such a building. These two questions were patent and should have been thoroughly discussed before our last election. As an ex-member of the board of education I wish to express my entire confidence in the ability of the present board to deal fairly with all of the questions that may arise. The citizens from every quarter of the city should remember that we are a unit and there should be no division of north, south, east or west, but a unanimity of purpose on the part of all to make the city the most inviting possible and our educational facilities conducive to the highest aims of the student and scholar. These points should be considered in the location of the building, its architecture and its equipment. Our absolute need of a high school building should be an incentive to expeditious action by the board and it is to be sincerely hoped that there may be neither sectional or factional differences to cause delay. The amount asked for, \$75,000, is not too much for such a building as the growth of Lima demands and as the school will stand as a monument to the judgment of Lima's present citizenship, the matter of location should be well considered and the most beautiful as well as most convenient site the city affords, selected.

DR. HERMANN Denies That He Has Left Lima.

He Has Worked for Years to Establish a Practice

Which He Says it Would be the Height of Folly for Him to Abandon by Leaving the City.

The following communication received this morning from Dr. S. S. Hermann will be read with interest by that gentleman's friends in this community:

EDITOR TIMES-DEMOCRAT—Please rectify the impression that I have left the city permanently. It would be the height of folly on my part to leave a practice after working hard these 15 long years to establish, and a community that has honored me with the highest office that a physician can hold.

In regards to my domestic troubles, I would say that there are always two sides in such matters and request that judgment be suspended until the proper time. Yours truly, S. S. HERMANN, M. D.

BAD BOYS Attack a Little Girl and Attempt to Misuse Her.

Mrs. Ona Reed yesterday afternoon filed a complaint in Justice Duffield's court against Charles Hoddy and George Wetzel, two boys just in their teens. Mrs. Reed says that her little five-year-old daughter, Elsie was mistreated by the boys, who tore her clothing and attempted other indignities. A warrant was issued for the lads and Mrs. Reed was at the justice's office this afternoon awaiting the arrival of Constable Creman with the youthful prisoners.

Beaumont, Tex., May 25.—Some of the get-rich-quick stories which are going the rounds here, many of which are well authenticated, are little short of marvelous, but are easily credited after one has been on the ground for a day or two and becomes familiar with the situation. The great bulk of the money, up to this time, has been made either by the natives, who owned the land, or by men from nearby Texas towns who got on the ground early.

An old negro and his wife owned 4 acres of land on Spindletop heights out of which he grubbed a living as a truck gardener. He had tried many times to sell his land for \$150, but nobody wanted it. A few weeks before the first oil strike was made, the old negro and his wife left for a visit in a nearby county. When he returned, Beaumont was full of excited men. Within 10 minutes after he got home he had been offered \$115,000 for his land by one of the oil companies. This was more money than he had ever heard of, and he said he guessed he'd take it, if the company would let him keep his cabin and enough ground for a kitchen garden. The deal was closed.

Tom Richardson, secretary of the Houston Commercial association, came to Beaumont in response to a telegram from D. R. Beatty, two days after the Lucas gusher "came in." He had comparatively little money, not more than a few hundred dollars, and he invested every dollar of it in the land nearest the proven field. It could cash in today for upwards of \$200,000, but isn't cashing in. He is probably the most enthusiastic and optimistic man here. His eyes fairly glisten and the muscles of his face twitch convulsively when he talks of the future of this oil field. He says there is more natural wealth waiting to be spouted from the bowels of the earth hereabout than the combined riches of the Klondike, the Colorado gold mines, and the South African diamond fields.

If Pierpont Morgan could buy a lot of old scrap steel and organize a company with a capital of \$1,110,000,000, there is a conservative chance here for a \$5,000,000,000 company without a bit of over capitalization," is the way Richardson puts it.

Richardson came from Kansas, originally, and was a newspaper man before he located in Houston. He is about 40 years old, tall and angular and fairly bubbly over with geniality. His friends call him "Smiling Tom."

Richardson told me that a boy who worked in his office at Houston got hold of a few dollars and came over here to invest it. "The other day the boy showed me his bank book," said Richardson. "It had \$500 in it. The little cuss had been getting leases and options and turning them over. I told him he was on the right track, but not to lose his head."

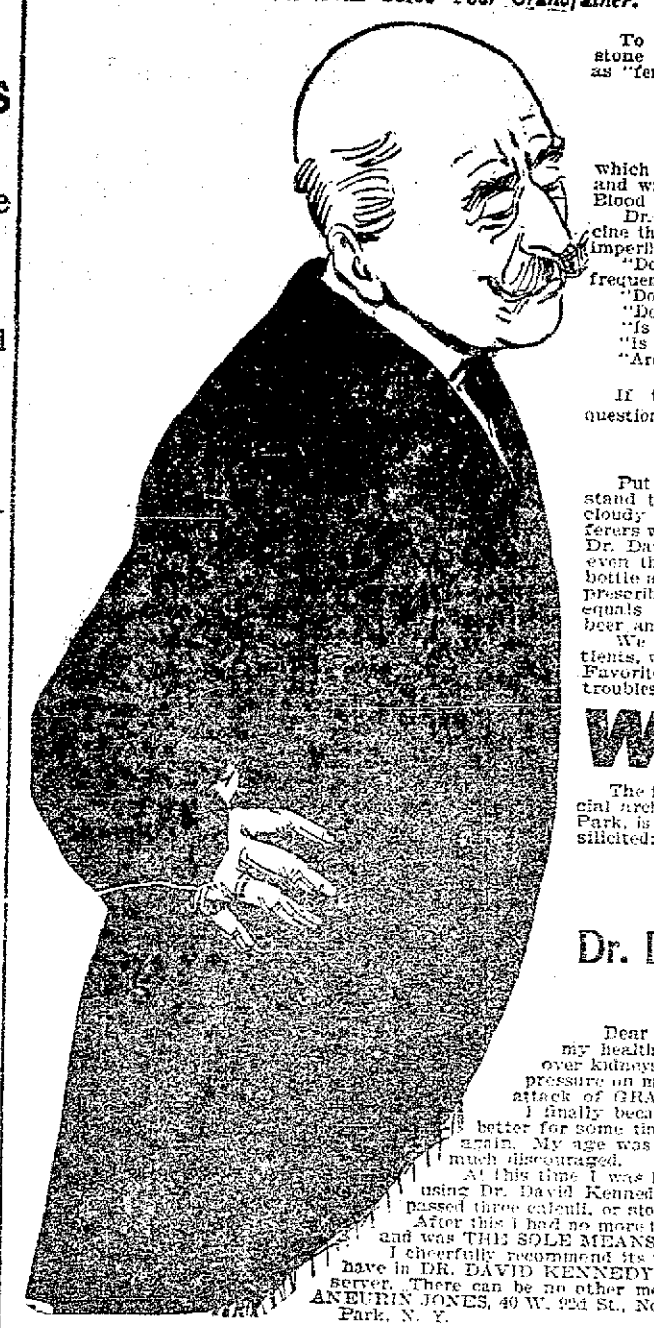

There is hardly a native here who is not a good deal richer than he was four months ago. Every man, woman or boy with a spark of intelligence got into the game in some way or other, and, once in it, made money in spite of themselves.

A clerk named Pearson, in one of the drug stores here, had saved about \$60 out of his small earnings, and, being afraid he would spend it, invested it, about six months ago, in land. Fortunately for him, this land happened to lie within a few hundred yards of the Lucas gusher. He sold it a few weeks ago for \$104,000. He is still drawing soda water and making pills in the drug store, and says he hasn't as yet made any plans for changing his occupation.

A few weeks after the excitement began, a small farmer, who owned about 12 acres, a few miles from the city limits, heard about the big increase in land values, and talked the matter over to his wife. They decided that it would be a good plan for him to come to town and see if he could sell the farm at a good profit. It had cost him \$20 an acre. "Don't you sell

Doctor David Kennedy's Favorite Remedy

"The Kind That Cures Your Grandfather."

To any one suffering from Bright's disease, weak kidneys, stone in the bladder, or what is commonly known among women as "female weakness," we will send ABSOLUTELY

Free a Sample Bottle of Dr. Kennedy's Favorite Remedy,

which will positively cure any case of kidney or bladder trouble, and will restore you to perfect health; it cures Rheumatism and Blood Diseases and builds up the system.

Dr. David Kennedy's Favorite Remedy is the only kidney medicine that acts as a laxative. All others cause constipation, which impairs the patient's health.

"Do you desire to urinate often? Are you compelled to get up frequently during the night?"

"Do you have pain in the small of the back?"

"Does your urine stain linen?"

"Is there a scalding pain in passing it?"

"Is it difficult to hold the urine back?"

"Are you troubled with vital weaknesses?"

If the answer is **CURES** "Yes" to any of these questions your kidneys are diseased, or bladder are diseased.

Do This:

Put some of your urine in a glass tumbler or bottle and let it stand twenty-four hours. If there is a sediment at the bottom, a feverish or milky appearance, your kidneys are surely affected. Sufferers with any of the above symptoms will be glad to know that Dr. David Kennedy's Favorite Remedy will surely relieve and cure the most distressing cases, and that they can get a sample bottle absolutely free by writing for it. No living physician can prescribe a medicine for the kidneys, bladder, liver and bowels that equals Favorite Remedy. It promptly corrects the bad effects of beer and whiskey on the system.

We receive thousands of voluntary testimonials from our patients, who cannot say enough in praise of Dr. David Kennedy's Favorite Remedy, which has cured them of their kidney and liver troubles.

Weak Kidneys

The following letter from Mr. Anurion Jones, who was the official architect and civil engineer for all improvements in Central Park, is a sample of the thousands we receive daily, kindly unsolicited:

Surgeon's Knife

Failed.

Dr. David Kennedy's Favorite Remedy

Cured.

Dear Doctor: Some years ago I suffered serious disturbances to my health, with loss of sleep and appetite; severe pains in the back, over kidneys and liver; bowels constipated; there was a severe attack of DIABETES AND STONES IN THE BLADDER.

I finally became so bad that an operation was performed on me. I was better for some time after this, but in a few months the old trouble set up again. My age was against me, too, as I was 62 years old, and became very much discouraged.

At this time I was losing a great deal of blood from the kidneys, when I began using Dr. David Kennedy's Favorite Remedy, of Rondout, N. Y. In a few days I passed three calculi, or stones, the size of very large peas.

After this I had no more trouble; the medicine gave a healthy tone to my constitution and was THE SOLE MEANS OF MY CURE.

I ever felt recommended its use, and no amount of money can measure the confidence I have in DR. DAVID KENNEDY'S FAVORITE REMEDY as a health restorer and promoter. There can be no other medicine so valuable for liver, kidney and bladder diseases.

ANURION JONES, 49 W. 92d St., New York City, Late Architect and Civil Engineer, Central Park, N. Y.

For less than \$1,000 an acre," were his wife's orders. He put the land in the hands of a real estate dealer, and in about an hour a speculator offered \$6,000 an acre for it. The speculator had overstepped himself. The farmer shook his head, and said he guessed it was worth that much he'd keep it a while. It was too valuable to sell. If the speculator had offered \$1,000 an acre, he would have got the land.

A man named Erickson was in the soda water manufacturing business in Beaumont, making out a living, but not getting a head very fast. He was one of a score or more of heirs to several hundred acres of land that was worth not to exceed \$10 an acre, with no market for it at that or any other price. The oil strike shot the speculative value of this land up to several thousand dollars an acre, and the Ericksons sold. Now this particular member of the family struts around Beaumont with chest thrown out and head held high and he is out of the soda water business.

C. E. Hagerman, one of the joint proprietors of the New Crosby house, and a comparatively poor man, pooled \$700 with three friends the day following the "coming in" of the first gusher, and invested it in seven acres of land. They sold half the tract for \$5,000, a net profit of a few hundred dollars each, with the agreement that two wells be sunk at once by the purchasers to enhance the value of the rest of their holdings. One of these wells is the Star and Crescent, which "came in" the other day and is said by experts to be the equal of the Lucas in capacity. The net result to Hagerman up to date, as the result of his \$700 investment, is \$40,000 cash in bank, several thousand shares of stock in various companies and he has a little land left which he worth several hundred times what he paid for it.

A lawyer named Brooks borrowed \$1500 to invest in the stock of one of the oil companies at 25 cents a share. A few days after he bought the stock, the company struck a gusher and he sold for \$60,000 cash. Most of this he invested in land near the gusher, although the price at that time was so high as to scare timid investors.

As the gushers came in, one by one, the value of his land kept increasing until, today, Brooks is said to have holdings valued at \$500,000.

There are only a few of the scores of similar cases that could be cited, but they give some idea of why Beaumontites all look pleasant.

THE PARIS MEDICATED CRAYON

BOOK "DISEASES OF MEN" FREE.

The New Scientific Method for the Treatment and Cure of the following diseases: Seminal Weakness, Varicocele, Urinary Stricture, Gleet, Gonorrhea, Catarrh or Mucous Discharges, Irritation and Enlargement of the Prostate Gland, Bladder and Urinary Disorders.

There is no medicine taken into the stomach which can reach the membranes of these organs, as every physician is fully aware. Therefore, the only true and sure way is by the use of medicines applied directly to the diseased membrane, reaching the seat of the disease.

The Crayons are inserted into the water passage upon reaching the ailing slip into position without the slightest effort or pain, requiring a short time to dissolve. In this way the medicine reaches the diseased parts, and its action immediately begins, continuing until a permanent cure is effected. It is soothing and healing, restores unimpaired discharges and drains of vigor, and gives perfect and permanent power to the sexual organs. It is a harmless, but powerful, and acts like a mild electric current, invigorating and introducing rest and sleep to the entire body. It will effect a cure to stay cured, and prepare you anew for life's duties and pleasures.

Prostate Gland, and all diseases and weaknesses of men.

Every man afflicted with any of the diseases mentioned above is invited to call at our office or write for a free examination and consultation. We will demonstrate to you why our Special Treatment, combined with the Paris Food and Medicated Crayons, will cure you safely, quickly and permanently.

Write or call for our new book. It is fully illustrated with forty (40) engravings, showing the vital organs and diseases in their various stages, and is written in plain language, describing the causes, symptoms and results of all the diseases of men and tells how they may be cured at home. It gives advice and information you could not obtain elsewhere without considerable expense. By request we will send one of these books free, by mail, in a plain wrapper, sealed with my own sending us the name and address.

Dreary Chill of the Rainy Day Not Dispelled

By the Enthusiasm That Was Found

In the County Convention That the Republicans Held Today.

Bosses Had Their Slate Laid Out in Printed Form and Carried It Through With But Weak Resistance.

A chilly, dismal event that seemed to be wholly in sympathy with the dreariness of the dark, rainy day was held in the assembly room at the court house today in response to the recent call for a Republican County Convention. The day being too disagreeable for anything except a Republican convention the attendance numbered about seventy persons.

The convention was called to order shortly after 10 o'clock by A. L. Belch, of Monroe township, chairman of the Republican County Central Committee, who announced that the committee had selected the following temporary officers for the convention: Chairman, S. S. Wheeler; secretary, E. L. Durbin.

Mr. Wheeler was called to the chair immediately and in a stereotyped speech he eulogized the party that is controlled by Mark Hanna and condemned the party of the people. He made a strong plea for harmony with the ex-soldiers and colored men by crediting the Hanna party with having freed the slaves of the south and tried to weld the Hanna and Foraker factions together by declaring that not Mr. Hanna alone but he and also Mr. Foraker were the party leaders in the United States senate, and that Foraker should be re-elected. He also paid tribute to the president and Governor Nash. The only enthusiasm that he was able to create however was by his reference to the candidacy of Judge J. L. Price for judge of the supreme court.

Upon motion by J. W. Mowen the temporary organization was made permanent.

Don Henderson then moved to dispense with the usual committees as the convention had no use for them. Postmaster Hall seconded the motion and after it was carried he moved that the convention proceed with the nomination and election of eleven delegates to the Republican State convention which is to be held in Columbus on June 24 and 25. The motion was carried.

E. F. Davis nominated J. G. Hirsch, F. H. Downing said that all of the delegates were not yet full and moved that those present cast the full vote of the precincts represented. This was also carried. D. C. Richmond nominated H. O. Bentley; Owen Francis nominated S. S. Wheeler; J. W. Mowen nominated Hon. Frank A. Hoffman. Members of the State Board of Public Works and other nominations were made as follows: G. L. Hicks, M. J. Hosler, D. C. Henderson, S. L. Ashton, P. A. Kershaw, S. R. Vertner, J. W. Mowen, J. H. Morrison and Dr. Davidson.

The roll of townships and precincts was called and the chairman of each delegation cast the entire quota of his respective precinct for 11 of the 33 candidates, there being 11 to be chosen. The fight terminated as follows:

J. G. Hirsch—205.
H. O. Bentley—205.
S. S. Wheeler—197.
Frank Huffman—197.
G. L. Hicks—197.
M. J. Hosler—209.
D. C. Henderson—197.
S. L. Ashton—196.
S. R. Vertner—197.
J. W. Mowen—209.
J. H. Morrison—59.
Dr. Davidson—53.
P. A. Kershaw—137.

The chair declared all of the candidates elected except J. H. Morrison and Dr. Davidson, and a glance at the printed tickets that had been passed around in the convention by the bosses and their lieutenants was sufficient to prove that Morrison and Davidson were not on the slate and were in accordance with the orders of the bosses, turned down.

The Alternates.

For alternates there were also thirteen nominations and among the names placed in nomination were L. H. Rogers and S. S. Sherrick, but as

their names did not appear upon the printed tickets they immediately saw their "finish" and withdrew. Then the following eleven remaining candidates who were on the "slate" were elected by acclamation:

Mr. A. Atmur, J. M. Biner, F. H. Downing, M. J. Sanford, Alonzo McClain, A. J. Osman, J. L. B. Leatherman, W. L. Rogers, S. D. Chambers, W. M. Murray, and I. E. Thayer.

Resolutions.

While the delegates were preparing to report the selection of members of the new Republican county central committee, Charley Rumbaugh reminded the convention of the fact that Judge Price is a candidate for office and moved that the chair appoint a committee of three persons to draft resolutions. The motion was carried and chairman Wheeler appointed Don Henderson, A. L. Belch and J. G. Hirsch as the committee. They evidently had the resolutions up their sleeves for a very short time Don Henderson reported a long-winded set of pleadings which endorsed the national administration with its Cuban postal scandals and Philippine commissary scandals included, instructed the delegates to the state convention to support Gov. Nash for re-election, use all means available for the re-election of Jos. B. Foraker to the U. S. Senate and to support Charley Rumbaugh for another term as a member of the Republican state central committee. The resolutions also endorsed the candidacy of Judge Price for the Supreme Court bench and instructed the delegates to use all honorable means to secure his nomination. The resolutions were unanimously adopted.

New Central Committee.

The roll was called and the various delegations reported the selection of the following members of the county central committee:

Amanda township—R. G. Sutton.
Anglaize, E. precinct—E. Leatherman.
Anglaize, W. precinct—C. H. Whiteman.
Bath township—I. E. Thayer.

Richland tp., Beaverdam P.L.—W. M. Edgecomb.
Shawnee tp.—Alonzo McClain.
Sugar Creek tp.—W. R. Price.
Spencer tp.—J. M. Biner.
Judge Price was called for and he appeared and addressed the convention, thanking the delegates for their support and expressions of confidence. His remarks were received with genuine enthusiasm and the convention then adjourned.

PROJECT

Will be Carried Out by Cleveland Parties

But the Original Projectors of Lima Will Retain an Interest in the Line.

A telegram from Defiance says that Alexander J. Prentice, of Cleveland, was there yesterday for the Northern Ohio Electric railroad. His coming brought much good news. The company has practically changed owners, and is now controlled by Cleveland parties, although the original projectors, W. D. Sherwood and others, of Lima, still have an interest in the line. Mr. Prentice states that the right-of-way is secured between Defiance and Bryan, and that the work of construction will begin within 30 days, his visit being partly to arrange for that end. The first work will begin at Defiance and proceed toward Bryan.

Mr. Prentice is also looking over ground here for the location of the power house and car barns. Several towns want them, but Defiance seems to be in the lead. Many people thought the line died an early death, but this news comes with a welcome.

Gipsy Dance. Mrs. John Davis.
Song—"Fis May." Denna.
Mrs. I. R. Longworth.
Trio—Memory. Mrs. E. v. Wells, Mrs. W. Cooney and Mrs. R. Truesdale.
At 5:30 the dinner bell rang out for all to assemble on the north lawn and take places at tables spread with snowy linen and here enjoy a meal of everything seasonable. The guests were home friends of the host and hostess and Dr. and Mrs. S. A. Baxter, Mr. and Mrs. J. O. Ohler, Mrs. W. B. Richie, Mrs. Rose Collins, Mrs. Wm. Watt, Mr. and Mrs. Harry Moulton, Mrs. Riddle from Ada and Mrs. Patterson from Paris, France.
At the business meeting of the Sappho club on Tuesday afternoon at the home of Mrs. Rial Truesdale, the following ladies were elected to offices for the season of 1901 and 1902: President, Mrs. Harold B. Adams; vice president, Mrs. I. R. Longworth; secretary, Mrs. E. v. Wells; executive committee, Mrs. G. F. G. Hoyt and Mrs. Charles Black.

The Round Table will close their year's work with a meeting Monday afternoon, at the home of Mrs. C. E. Robinson. After the roll call and current events, places for next year's work will be discussed.

Monday evening Dr. and Mrs. W. B. Hoyer, of west Spring street, opened their lovely home to the members of the Auld Lang Syne circle. An interesting program was enjoyed, then the annual election of officers took place, resulting as follows: President, Mrs. George Hall; secretary, Rev. W. H. Leatherman; treasurer, Dr. W. E. Hoyer; program committee, Mr. Geo. Hall, Miss Cromer, Mrs. Howard B. Hoyer and Rev. Figley.

The Sutorium circle was favored with balmy air yesterday for their merry ride out to Mrs. James Seals' country home, east of town, where they were royally entertained. The author discussed, was Eugene Field. Several interesting papers and talks were given, and music concluded the meeting, after which an excellent three course dinner was served. The guests of the day were Mrs. T. P. Johnston, Mrs. George Faurer, Mrs. J. Karns, Mrs. Asa Catt and Miss Remaine, of Mansfield. This concluded the club meetings for this season, and next year the club will be offered by Mrs. W. M. Price, as president, and Mrs. James Campbell, as secretary.

Mrs. Frank Hood, of Youngstown, is visiting Mrs. Willard Price.

The N. M. W. Eucher will meet Tuesday afternoon with Mrs. P. E. Golden, of south Jameson avenue. One of the loveliest affairs of the week, was the party given on Wednesday afternoon by Mrs. Hawkins, of Central avenue. The rooms were fragrant with the perfumes of lilacs of the valley, which were used to decorate and for souvenirs. Six tables were filled with lovers of progressive pedro, the high scores being held by Mrs. John Miller and Mrs. Jason Lamson, the former winning as a reward, a statuette and the latter, a large bouquet of lilacs. After the game, several musical numbers were enjoyed and followed by a dainty tea. Thursday afternoon was a perfect one and numerous social affairs were

enjoyed, among them, was the meeting of the Thursday club, at the home of Mrs. Harmon, the guests were Mrs. Mollins and Mrs. Hamel.

The Elgide club have added to their corps of members, the following ladies: Mrs. W. Scott, Mrs. B. McWhirk, Miss Fisher and Miss Heffner. The St. Marys chapter of Christ church are to give a reception at Mrs. Frank Leland's home next Friday.

MADE

Hatfield Cough Up a Twenty With His Quid.

Case of Pocket-Picking Cleared Up.

Ed. Hatfield and Mary Clifford Arrested for a Bold Robbery.

Hatfield was Searched and a Stolen Twenty-dollar Bill was Found in His Mouth—Mike Zimmerman Robbed.

This morning about 2 o'clock, patrolmen Grant and Shook reported to Lieut. Wingate that Mike Zimmerman, the well known oil producer had been robbed of \$20 at the Brunswick hotel, a resort near the P. Ft. W. & C. depot, and that Ed. Hatfield and Mary Clifford, alias Sloppy Bush, both well known characters in police circles, were thought to have committed the robbery. All of the night patrolmen were notified to be on the lookout for Hatfield and the woman and at 3:50 o'clock officers Sullivan and Jackson appeared at the station with them, having found them near Berrigan's saloon on west vine street. Both denied any knowledge of the robbery and when searched the missing money was not found but it was learned by the police that they had bought a pint of whiskey at a south side saloon and Hatfield tendered a \$20 bill in payment. The bartender could not change the bill, whereupon the woman paid for the whiskey.

Found One Twenty.

This afternoon Hatfield was again subjected to a search by Chief Harley and acting sergeant Patton and was noticed to be shifting something about in his mouth. He had taken a chew of tobacco and was ordered to spit it out. He did so and a glance into the spittoon into which he had dropped the quid of tobacco revealed the missing \$20 bill, which was wadded up with the Polar Bear tobacco Hatfield had been chewing. Seeing that he was trapped, Hatfield claimed that the Clifford woman had robbed Mr. Zimmerman and had given him the \$20.

Today Mr. Zimmerman stated that he thought he had been relieved of about three twenty dollar bills. He fell asleep in a chair in the dining room at the Brunswick and while there Hatfield and the woman entered and are alleged to have taken the money from his pocket.

The woman was transferred to the county jail this afternoon and was again searched, but no money was found. She admits that Mr. Zimmerman was robbed of \$20 but claims that Hatfield committed the robbery.

Mrs. Wm. Stewart is home from a short stay at Bucyrus.

Miss Lena Sanford, who has been teaching elocution in a college in Miss, returned home today. She has had a very successful year and is engaged to return to the same position next year.

The Junior class of Lima high school at a meeting yesterday afternoon, voted in favor of securing Wheeler hall in which to hold a reception to the senior class on June 6th.

Manager Foltz, of the high school athletic association, received word this morning from Marion, containing the withdrawal of the Marion high school track team from the Field Day exercises, to be given by the local high school, May 31. They state that owing to commencement exercises to be held upon that date, it will be impossible to attend.

The seniors had a surprise worked upon them yesterday, in the form of a Latin examination.

The juniors are preparing for physico examination, which is to be held June 6th, or 7th.

Findlay's senior class graduated last night from the stage of the auditorium in the new high school building. The auditorium seats 1200 people. "Look out Lima," your country rival will beat you yet.

Ottawa class of 1901 graduated last night. There are about 15 in the senior class.

The seniors have Latin examination Monday, May 27.

Sound Kidneys Insure Good Health.

Mr. John H. Corlies, Secretary of the Council Bluffs, Ia., Athletic Association, was cured of kidney trouble by Peruna. He says:

"I am a firm believer in Peruna. For three years I suffered with severe trouble of the kidneys and other pelvic organs, trying several remedies without relief. I used Peruna faithfully for fourteen weeks and am glad to say it relieved me entirely of all pains."

"I am in excellent health, have gained twelve pounds in weight, and never felt better in my life."

Hon. D. L. Jaycox, Chaplain of the Grand Army of the Republic, writes from 886 Broadway, Oakland, Cal.:

"I am an old war veteran. I contracted severe bladder and kidney trouble, spent hundreds of dollars and consulted a host of doctors, but neither did me any good."

"Finally some of my comrades who had been cured by Peruna, advised me to try it. I at once bought a bottle and found it helped me so much that I kept on using it for nearly four months."

"Peruna has proved the best medicine I ever used, my pains are gone, and I believe myself to be cured. I feel well and would not be without a bottle in time of need for ten times its cost."

Mrs. Mary Lawler, of Appleton, Wis., was cured of kidney trouble by Peruna. In a recent letter to Dr. Hartman, she says: "Last August I caught a summer cold which settled in the kidneys and caused mercurial inconvenience. Nothing I did seemed to help me and the doctor advised a change of climate. As that was out of the question for me, I tried Peruna as a last resort, and I found it was a God-send to me."

The kidneys are the natural gateway out of which much of the waste tissue finds its escape. This waste matter becomes a very poisonous substance if allowed to accumulate. The renal artery brings the blood charged with impurities to the kidneys.

If the kidneys are healthy they will excrete the poisons from the blood. The renal veins return the purified blood from the kidneys to the general circulation.

Peruna stimulates the kidneys to excrete from the blood the accumulating poisons, and thus prevents the convulsions which are sure to follow if the poisons are allowed to remain in it. It gives great vigor to the heart's action and digestive system, both of which are liable to fail rapidly in this disease.

Kidney diseases are more liable in summer than in winter. Send for a copy of "Summer Catarrh," written by Dr. Hartman. This book will be sent free to any address upon a application.

A Regular Silk Colony

This is a very interesting study of one of nature's most wondrous processes, and must be seen to be appreciated. Every one, especially the young, should embrace this opportunity to learn a lesson in natural history.

Genuine Chinese Silk Worms

These worms were imported direct from China and were prepared through the influence of MINISTER CONGER.

In no branch of entomology is there more of fascinating interest to the student than in the contemplation of the habits and work of these wonderful little manufacturers and in the beautiful, complicated and beneficial results achieved.

A BEAUTIFUL PICTURE

The rich cream color of the worms, the golden sheen of the silk and the dark green of the foliage upon which they feed makes a very beautiful picture, especially night under artificial light.

This exhibition will last ONE WEEK, but, come and see the commencement of the short, active and useful life of these little toilers.
